Institution of the Rubber Industry

JOURNAL OF THE IRI

Index to Volume 3 1969

INSTITUTION OF THE RUBBER INDUSTRY, 4 Kensington Palace Gardens, London, W8
Telephone: 01-229 9101

Director: L. R. Mernagh; *Secretary:* R. H. Craven

"Journal of the IRI" is published for the Institution by:
Rubber & Technical Press Ltd., 25 Lloyd Baker Street, London, WC1. Telephone: BRUnswick 1125

JOURNAL OF THE IRI

VOLUME 3: 1969

Numerals in bold refer to papers published in JOURNAL

Titles in bold refer to books reviewed and other publications

---

A

Addition Polymers: Formation and Characterization (A. Smith),8
Advanced materials. Refractory fibres, fibrous metals, composites (C. Z. Carroll-Porczynski), 192
Advances in Polymer Blends and Reinforcement. Proceedings of the Conference, 238
Ageing Behaviour of Polychloroprene Vulcanisates. By E. Engelmann, **77**
Ageing Characteristics of Modern Curing Systems. By B. N. Leyland and T. J. Meyrick, **60**
Akron, Ohio. Editorial, 231
ASTM. **Highway Skid Resistance** (STP 456), 238
ASTM. New Standards, 96
ASTM Standards, Part 28: Rubber, carbon black, gaskets, 192
Annual General Dinner, 91
Annual General Meeting, 89
Antidegradants and Their Effect in Rubber. C. H. J. Avons, 95
Antioxidants. The Effect of on the Heat Resistance of alpha-Methyl Styrene Butadiene Rubber. By A. A. Yehia and N. A. Ghanem, **125**
Antioxidants for Synthetic Rubber Compounding. The Choice of. By P. Hill, **174**
Ascroft, K., Robinson, K. J., and Stuckey, J. E., A Comparative Study of the Vulcanisation of Natural Rubber with various Sulphur-Donor Systems, **159**
Associateship without examination route ceases 1st January, 1970, 187
Atkin, W., and Nye, H. F., Precise Method of Calculating Degree of Vulcanisation of Elastomeric Tubes Using an Electrical Analogue, **16**
Atkins, C., and Franks, D. G., The Crippling of Rectangular Rubber Struts, **214**
Aubrey, D. W., Jackson, T. A., and Smith, J. D., Peel Adhesion of Pressure-Sensitive Tapes: Determination of Peel Adhesion with Variation of the Angle of Peeling, **265**
Avons, C. H. J., Antidegradants and their Effect in Rubber, 95

B

Bailey, L. J. W., Annual General Dinner, 91
Belgium Section of IRI, 95, 190, 236
Birmingham—The Midland Section. Editorial, 139
Blow, C. M., Exley ,K., and Southwart, D. W., The Penetration of Liquids in Rubbers. Part 2: Aspects of Swelling Related to Seal Performance, **22**
Bonding Direct to Textiles and Metals without Application of a Bonding Layer. By E. Klötzer, **129**
Bonding. Elastomer to metal. By J. F. E. Ruffell, **166**
Bonding of Rubber to Metal. Some Factors Influencing the. By B. Pickup and E. Weatherstone, **254**
Book reviews: 8, 146, 192, 240
Books written or edited by members, 191, 238
Briscoe, G. B., and Hybart, F. J., Labour Costs of Compounding in the General Rubber Goods Section of the Rubber Industry, **217**
British Rubber Manufacturers' Association Dinner, 95
BSI—New Specifications:—
BS 903: Part A12: Metric Units: Determination of Rubber-to-Fabric Adhesion (Ply Separation), 3
BS 903: Part A25: Metric Units: Determination of Impact Brittleness Temperature, 3
BS 903: Part 26: Vulcanised Rubber. Determination of Hardness, 46
BS 4355: Centrifuged Ammonia: Preserved Natural Rubber Latices, 3
BS 4373: Analysis of the Elastomeric Thread in an Elastic Fabric, 46
BS 4396: Raw Natural Rubber, 46
BS 4398: Compound Ingredients for Rubber test mixes, 46
BS 4470: Method of Test for Raw Isobutylene - Isoprene Rubber (IIR or butyl), 192
Buist, J. M., Chairman of Council, 1969-70, 141
Burkey, R. A., Hon. Secretary, West of England Section Resignation, 192
Burton-on-Trent Section, 236
Buswell, A. G., and Sweeney, T., Sidewall Compounds for Radial Ply Tyres. Part 2, **221**
Byrne, P. S., The Development of Elastomeric Membranes for Construction and Agriculture, 3

C

Carbon Blacks in Rubber. Structure of. Morphology of Aggregates, 5. By F. A. Heckman and A. I. Medalia, **43**
Carroll-Porczynski, C. Z., **Advanced materials. Refractory fibres, fibrous metals, composites**, 192
Ceylon Section IRI, 190
The Choice of Antioxidants for Synthetic Rubber Compounding. By P. Hill, **174**
Clark, A. H., Flint, C. Falconer and Roebuck, H., Use of Factice in the Injection Moulding Process Applied to Rubber Compounds. Part II, **110**
Clifton, R. G., Tyre Design in the Future, **270**
Collier, H. M. Visit to Malaysia, 238
Colwyn Medal, 1969, 233
Colwyn Medal. Presented to Dr. W. F. Watson, 91
Committees, IRI, 1969-70, 141
A Comparative Study of the Vulcanisation of Natural Rubber with various Sulphur-Donor Systems. By K. Ascroft, K. J. Robinson and J. E. Stuckey, **159**
Conferences:
Advances in Polymer Blends and Reinforcement. University of Loughborough, 96, 238
Advances in Polymer Science and Technology 3. Chemistry of Liquid and Thermo Plastic Copolymers, 96
Conferences, 1
Industrial Research Associations, 95
International Rubber Conference, Moscow, 1969, 3
NRPRA Latex Conference, 96
Polymers in High Performance Application, PI/SPE, 96
Polymerisation Conference at Sebad Varna, Bulgaria, 96
Product Performance Testing, 96
"Recent Developments in Rubber Compounding", 46, 94
CNAA Bachelor of Science (BSc) NCRT, 187
Courses, 96
Creep. Problem of. Rubber in Engineering Design Group, discussion, 6
The Crippling of Rectangular Rubber Struts. By C. Atkins and D. G. Franks, **214**
Cumming, A. P. C., J. H. Fenner Group, 46
Cumming, A. P. C. and Wright, P., **Solid Polyurethane Elastomers**, 146
Curing Systems, Modern. Some Ageing Characteristics of. By B. N. Leyland and T. J. Meyrick, **60**

D

Daniel, T. J., Moulding Productivity and Planning, 236
Dawdyoff, W., and Howorka, H., **Technical Dictionary of High Polymers**, 146, 192
The Development of Elastomeric Formulation to Withstand Extremely High Temperatures and Pressures. By A. R. Shalders, **25**
Diamond, Mr., A. G. M., 91
Diploma Awards, 43, 233
Direct Bonding to Textiles and Metals without Application of a Bonding Layer. By E. Klötzer, **129**
Dunn, P., and Hart, S. J., The Tropical Deterioration of Rubber, **81**

E

Eagles, A. E., International Standards. The London Meeting of ISO/TC45-Rubber, 49
"Education and Training in the Polymer Industry" panel at Burton-on-Trent, 236
Effect of Antioxidants on the Heat Resistance of alpha-Methyl Styrene Butadiene Rubber. Heat Resistant Rubbers. III. By A. A. Yehia and N. A. Ghanem, **125**
Elastomer to Metal Bonding. By J. F. E. Ruffell, **166**
Elements of Injection Moulding and Thermoplastics (Learning Systems Ltd., for the Plastics Institute), 8
Engelmann, E., The Ageing Behaviour of Polychloroprene Vulcanisates, **77**
EPDM in Japan, 236
Ethylene Propylene Terpolymer Vulcanisates. The Thermal and Thermal-Oxidative Ageing of. By L. I. Laud and J. E. Stuckey, **29**
Examination results June, 1969, 187
Exley, K., Southwart, D. W., and Blow, C. M., The Penetration of Liquids in Rubbers. Part 2: Aspects of Swelling Related to Seal Performance, **22**

F

Factice in the Injection Moulding Process Applied to Rubber Compounds. Use of: Part II. By C. Falconer Flint, H. Roebuck and A. H. Clark, **110**
Farlie, E. D., discussion, 6
Fellowship and Associateship awards, 187
Flint, Dr. C. F., retirement as Director of Research, Factice Research and Development Association, 191
Flint, Dr. C. Falconer, Vice-President, 43
Flint, C. Falconer, Roebuck, H., and Clark, A. H., The Use of Factice in the Injection Moulding Process Applied to Rubber Compounds: Part II, **110**

Flory, P. J., **Statistical Mechanics of Chain Molecules**, 240
Fluoroelastomer, 190
Foundation Lecture 1969. The Interaction of Science and Technology. By Sir Harry Melville, **205**
Foxton, A. A., Hillman, D. E., and Mears, P. R., Identification of Rubber Vulcanisates by Pyrolysis-Gas Chromatography, **179**
